

**TO WOMEN**

## THOSE HEADACHES

If accompanied with backache, dragging-down pain, do not have to be. Nature never intended that women should suffer in this manner.

**Dr. Pierce's FAVORITE PRESCRIPTION**

For forty years has proved wonderfully efficient as a remedy for woman's peculiar weaknesses and derangements.

And some men talk to themselves because they like an appreciative audience.

## FOR WEAKNESS AND LOSS OF APETITE

The Old Standard general strengthening tonic, **SHOWN'S TASTEFUL TONIC** drives out malaria and builds up the system. A true tonic and sure appetizer. For adults and children. 50 cents.

## The Cause.

"George is raising mutton-chop whiskers."

"That accounts for his sheepish expression."

## The Right of the Strong.

Three-year-old George and his sister, slightly older, were having a tete-a-tete luncheon. "Why," she demanded, "do you take the last ginger-snap, when you've had two and I haven't had any?" The young philosopher pondered for a moment, then condescended to elucidate.

"Because," he said, kindly, "I'm a boy and you're a girl."

## Bisulphide for Ants.

Where ants infest lawns or other equally available areas, punch holes about a foot deep with a stick at three or four points near the center of the nest, pour into each about an ounce of the bisulphide of carbon and close the openings with the foot. The vapor will get into and follow the galleries and kill the ants. A second treatment will rarely be necessary.

## Lessons in Housekeeping.

A young girl of fourteen whom I know plans and cooks the dinner at home one evening of each week, and her mother stays away from the kitchen entirely on this occasion. The girl's father gives her a small amount of money in the morning before he leaves home, and she does the marketing with this sum. The event is anticipated with great pleasure by all the members of the family as well as by the little cook, and the nourishing and appetizing dinner she serves is certainly surprisingly good.—Woman's Home Companion.

## For the Breakfast Table.

Though the original was "made in Germany" the idea is not bad and might well be adapted for American breakfasts as well. It is an egg warmer and is an attractive basket of Dresden china in which there is a place for several eggs.

Beneath the egg compartment is another for holding hot water and it is this, of course, which makes the dish particularly useful and practical.

## French Designs in Lamps.

Some of the old French designs in porcelain lamps fitted for electric light are very quaint and original. The shades are carried out in the same patterns and colors and are hand painted on silk or gauze, according to the style. Some have porcelain shades. The shades are charming and are quite a change from the ordinary style.

## Stuffed Celery.

This is a particularly appetizing relish to serve with a buffet luncheon. Select crisp stalks of celery and cut into two or three-inch lengths. The hollow of each stalk is filled with cream cheese mixed with chopped pimientos and nuts, seasoned well with mayonnaise.

## New Candle Shades.

Among the new candle shades are those of fine white linen, worked in eyelet embroidery. Buttonholed scalloped may also be worked top and bottom, while the owner's monogram, in raised satin stitch, is placed on one side. These are, of course, to be used over separate colored linings.

Instead of bullets a new German gun shoots a combination of gases, which temporarily blind and choke the victim, enabling him to recover later.

# Doings of the Lawmakers

## Activities of the Week Among the Members of the Oklahoma Legislature

### House Passes Judicial Redistricting

The third of the four big bills prepared by the democratic house caucus—the judicial redistricting bill—was passed finally by the house and is now ready for senate action.

Six district judges are eliminated, a direct saving of \$18,000 per annum in salary, and nearly half that much again in stenographic fees and traveling expenses.

The house has previously passed the bill consolidating county offices, and the bill cutting down salaries. The congressional redistricting bill, the fourth of the caucus measures, yet remains to be passed, and is likely to have a harder time than the others, since several democratic legislators, estimated from seven to fourteen in number, say they will vote against it on passage.

The judicial redistricting bill makes the following districts:

District No. 1 shall comprise the counties of Adair, Cherokee, Delaware and Sequoyah.

District No. 2 shall comprise the counties of Craig, Mayes, Nowata, Ottawa and Rogers.

District No. 3 shall comprise the counties of Wagoner and Muskogee.

District No. 4 shall comprise the counties of Pittsburg and McIntosh.

District No. 5 shall comprise the counties of Haskell, Latimer and LeFlore.

District No. 6 shall comprise the counties of Pushmataha, Choctaw and McCurtain.

District No. 7 shall comprise the counties of Bryan, Coal and Adoka.

District No. 8 shall comprise the counties of Seminole, Pontotoc and Johnston.

District No. 9 shall comprise the counties of Carter, Love and Marshall.

District No. 10 shall comprise the counties of Okfuskee, Hughes and Okmulgee.

District No. 11 shall comprise the counties of Pottawatomie, Lincoln and Creek.

District No. 12 shall comprise the county of Tulsa.

District No. 13 shall comprise the county of Oklahoma.

District No. 14 shall comprise the counties of Garvin, Cleveland, McClain and Murray.

District No. 15 shall comprise the counties of Kay, Grant, Noble and Pawnee.

District No. 16 shall comprise the counties of Payne, Logan and Kingfisher.

District No. 17 shall comprise the counties of Washington and Osage.

Seven Counties in District.

District No. 18 shall comprise the counties of Caddo, Grady, Stephens, Jefferson, Comanche, Cotton and Canadian.

District No. 19 shall comprise the counties of Tillman, Jackson, Harmon and Greer.

District No. 20 shall comprise the counties of Beckham, Roger Mills, Dewey and Ellis.

District No. 21 shall comprise the counties of Kiowa, Washita, Custer, and Blaine.

District No. 22 shall comprise the counties of Cimarron, Texas, Beaver and Woods.

District No. 23 shall comprise the counties of Garfield, Major, Alfalfa and Woodward.

Section 2—The qualified electors in each of said districts shall elect one judge therefor at the general election in 1914, and each four years thereafter; provided that in District No. 13 there shall be elected two judges and in District No. 18 there shall be elected two judges, at such elections; and provided further that in District No. 18 the counties of Caddo, Comanche and Cotton shall constitute a nominating district and the counties of Stephens, Jefferson, Grady and Canadian shall constitute a nominating district.

**Governor Signs Rent Bill.**

The rent for the buildings in which are located the state courts and the offices of a number of the departments will now be paid by the state treasurer, in accordance with senate bill No. 97, which was formally approved by Governor Cruce. The bill provides for an appropriation of \$47,410.04 for rent on the Mercantile building owned by the Levy brothers and \$23,033.00 due to C. L. Lawrence for rent on the Lawrence building. The appropriation covered the amount due the owners of the two buildings for a period beginning January 1, 1911, and ending June 30, 1913. The measure was framed by the senate committee on appropriations and carries the emergency clause.

**New Method For Electing Senators.**

Representatives Bolen of Oklahoma and Williams of Comanche, introduced a bill in the house of representatives Monday, providing machinery for the direct election of United States senators.

Under the new amendment to the constitution of the United States, the ratification of which was recently completed by the Connecticut legislature, United States senators will be elected by the people of the state at large instead of by the legislatures. The change in Oklahoma is by form only, since the primary election of United States senators has been the custom here since statehood. And at the last general election, United States Senator Owen and Judge Dickerson went on the regular ballots, under the Oregon referendum plan.

Representative Teehee, Curtis and Pinkham joined in introducing a bill providing that the state shall reserve to itself the mineral, including oil and gas rights.

### Crop Prospects Ideal.

That Oklahoma is entering into the most prosperous year of its agricultural history is the opinion of expert investigators who have been making a careful study of present crop conditions. Men who are in close touch with the agricultural conditions are saying that at no time during the past ten years, have prospects appeared so good.

The increased acreage being planted to sure feed crops, the abundant moisture in the ground that will insure good seed germination and stands and the plans being made for more efficient marketing of the farm products assure plenty of ready cash this fall. The big problem now is the handling of the crop. Already the railroads of the state are laying plans for the strenuous work of moving a bumper crop this fall.

Never before has any body of citizens so carefully studied the causes of past bad years or made such strenuous efforts to correct the faults as have the people of Oklahoma during the past year. The commercial organizations of the state, the railroads, the state and federal administrations and the farmers have been working to secure safe, sure crops this year. All trunk line railroads in the state have spent thousands of dollars to carry the gospel of safe farming to the people. The state and federal agricultural departments have been active missionaries in the cause of sure crops. Now the results are appearing.

### Low Rates to Farm Congress.

Tulsa, Okla.—The International Dry Farming Congress officials have received word that the Southwestern Passenger Association, in session at Hot Springs, Ark., had agreed on a special railroad rate from all points in the United States, Canada and Mexico for the International Dry Farming Congress to be held in Tulsa next October. A basic rate of a fare and one-third has been granted by passenger associations all over North America, and nearly every large railroad in the United States has reserved exhibition space for an agricultural showing. There will be delegates from thirty states and twenty foreign countries in attendance and the largest crowd ever assembled at a convention of any kind in Oklahoma is expected.

### To Lower Tax Levies.

The bill passed finally by the house Monday fixing maximum tax levies contained an amendment by Wright of Oklahoma county which is of considerable importance to Oklahoma City and to this county. It makes a considerable reduction in the maximum amount that can be levied by the municipal subdivisions of counties of over 80,000 population, which applies only to Oklahoma county. The following maximum levies apply to this county: County, three mills; city, four mills; common school, four mills; township, two mills; incorporated towns, four mills. The twelve deputy fish and game wardens under the state game department, are abolished by the terms of a senate bill by McClintic and Aycock, which was passed by the house Monday afternoon by almost unanimous vote. This bill was put through following the veto by the governor of a bill to abolish the entire state fish and game department with hopes on the part of the legislature that the governor might let it become a law.

### Second Probe at Granite.

Immediately following the receipt by the house of representatives of the governor's message denouncing the report of the committee, which investigated the Granite reformatory another resolution providing for a second investigation of that institution by a committee of five from the senate was introduced by Senator Carpenter, the recognized administration leader on the floor of the senate.

In his denunciation of the house investigating committee's report on the reformatory Governor Cruce asked "the fair minded members of the legislature" to provide for another investigation to be conducted by a committee that has no connection with the house committee and inasmuch as the resolution was introduced by Senator Carpenter the general belief is that it is intended to directly follow up the governor's request.

The resolution provides for the appointment of a committee of five members of the senate by the president which shall be given all the authority necessary to conduct a thorough and general investigation.

# NURSE HELPS YOUNG GIRLS

## She Knew From Experience Just What Was Needed. Describes One Remarkable Case.

Watonga, Okla.—Mrs. Ida Bollinger of this town, makes the following interesting statements for publication: "I suffered for 20 years, with womanly troubles, and in this time, tried several different treatments, but got no better."

I finally got hold of a Ladies' Birth-day Almanac, and read about Cardui, the woman's tonic.

I had not taken very much of it, before I was entirely well.

I do some nursing, and have given Cardui, the woman's tonic, to lots of women, with good results.

I use this medicine a great deal in treating young girls. A young girl came to my house one day last summer. She had taken cold at the wrong time, and was in a terrible condition. I went to the druggist, bought her a bottle of Cardui, and the third dose she took did the work.

She is now entirely well.

You may use my name in any way you desire, as I am anxious to do anything I can to help suffering women."

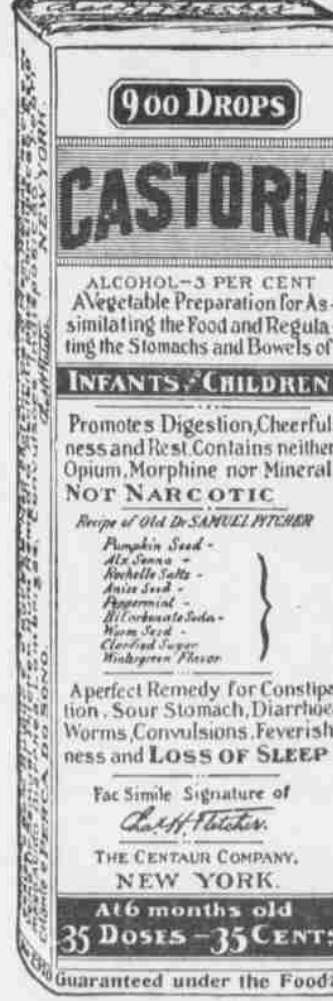

For more than 50 years, Cardui has been in widely extended use, by women of all ages, and has given perfect satisfaction, as a remedy for helping rebuild womanly strength and health.

Try Cardui yourself. It will help you. Your druggist sells it.

N. B.—Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. Adv.

## How Long Will the Women Stand 'Em?

"I am a mean man," confessed the Erratic Thinker. "My father bore the same unenviable reputation, and I had an uncle who served a term in the penitentiary and was twice mentioned for the legislature. So no one need be surprised when I remark that perusal of the dry goods advertisements causes me to wonder how soon corsets will become so long that their wearers will be obliged to roll them up around the ankles to keep from treading on them?"—Kansas City Star.

**900 DROPS**

## CASTORIA

ALCOHOL—3 PER CENT

**Vegetable Preparation for Assimilating the Food and Regulating the Stomachs and Bowels of INFANTS & CHILDREN**

Promotes Digestion, Cheerfulness and Rest. Contains neither Opium, Morphine nor Mineral. **NOT NARCOTIC**

Recipe of Old Dr. SAMUEL PITCHER

Pumpkin Seed -  
Sic Simons -
